Life

Christopher Kapic

Month 2021

Consider this a mix between a to do list and a goal list

Technologies to learn

- Docker

- Min.io

- MySQL

- Rust (Actix vs Rocket)

- PhoenixJS (window manager)

- MongoDB

After learning above technologies, create a YouTube video reflecting on utility and developer experience with each technology.

Projects to Do

- TickerTab

- FlexNation Baseball App

- Latex version of resume

- The perfect window manager

The perfect window manager

- Written in C++ or Rust

- Master stack and float

- Configured in bash

- Hotkeys in separate program (sxhkd)

- Clickable corners (eg: show desktop)

- Files can be kept on desktop for drag and drop
